Thirtythird Edition 2014

While the world visits the crime scene and conducts the investigation, it is superior to the investigation of the forensic and the police. If two courts summon a witness the same day, one of whom is criminal and other civilians, he must attend the criminal court and inform the Civil Court of his inability to attend, giving his reasons. Banerjee (3) Journal of Indian Academy of Forensic Sciences Vol. Provides different kinds of courts. District Court: It deals with civil cases. Once a theory embraces, it is only human nature anxiously looking for facts that support that theory and reject those that indicate some other theory. According to article 20 (2) Constitution of India, a person will not be accused and condemned more than once for the same crime. Atharva Veda gives details about remedies for various conditions. In such crimes, the police is sent by the polych. A sworn declaration in the court of a magistrate who will send him to the world for examination and report (S.41, CR.P.C.). The world must develop a fair understanding, a satisfactory evaluation and a high awareness of the problems, philosophical and legal related to the determination of the form of death. Types: (1) Documentary: Includes all the documents produced for the inspection of the Court. He should not encourage an accused person to talk about the crime with whom he is accused, or about the events that led to his arrest. But it is a withstanding evidence. Duets were defined duties. Other factors include the fear of ruthless interrogation. It is intended that, for example, meet the needs of undergraduate medicine students, to have a clear understanding of this topic. If Judicial class until arap arap oda:Äesid jÄtsE selapicnirp senoices sod ne edivid es etreum al ed asuac Äl. o±Äa nu Ät the time of the practical guide for the teaching of forensic medicine in India. The best of all the works was the "Medicologales issues" (Medicolegal Questions), written by Paulus Zacchias, who was the main material of the innocent Pope X, and Alexander VII, and an expert before the Roman Rota, the Court of Appeals. The world must be ready to defend each finding and conclusion about the report on closing and scientific motifs. The utive behavior is a self-imposed duty on each world, and in case of accident to determine the guilt. Bruardel, the Mä de Gro-Legal French authority wrote: "If the law has witnessed (the world), it remains a man of science; he has no life to take revenge, no person guilty to condemn, and no innocent person to save. 21. 21. These elements are not eligible for the self-return. 7 (1) The Supreme Court is the Moss High Judicial Court, and is in New Delhi. 29. With this medical testimony expert became a requirement instead of an option to give opinions in cases of murder, introduction of wounds, poisoning, hanging, drowning, infanticide and abortion, etc. Family members for elimination. 35. Absolute diagnostics are insecure and are carried out to expenses of consciousness. " It is used by the legal authorities for the solution of legal problems. Ä € ä,~ ä € enriched with photographs and color illustrations. The world is summoned to his court to give evidence in investigation. 19. 34. All expert witnesses in forensic sciences must strive to achieve respect, understanding and credibility in court. Wounds and fractures were classified. Jury: The jury is a group of people responsible and educated with good social position called "Jurado". The dicos were identified as professional people. It is said that the proof of the pudding is in the food. That's it! I mean, I don't know of each state and is the highest court for the state (article 214. (2) Investigation of the magistrate: This is carried out by a district magistrate (collectionist/commissioned), Magi Strate (RDO), Tahsildar or any other executive magistrate (S.20-23 cr. PC), especially empowered (executive magistrates). William Osler wrote: "The medicine is a science of uncertainty and an art of probability. (C) rumors: It is any statement made by anyone about what was not personally witnessed, or evidence he obtained from a third party, which is presented in the court to claim that the facts contained in the declaration are true, for example, evidence in the box of witnesses that indicates that B had informed him that he had seen C commit a crime. It can be attended by a registered post, or fixed in a conspicuous part of the house in which the person resides. Hostigation and even retirement. The report is sent to the Magistrate. Shoul D death certificate is not issued by a doctor without inspecting the body and satisfying himself that that person is really dead. It is advisable for the doctor to learn to look from the Medicolegal point of view to cases likely to become a subject of judicial investigation. Documentary evidence: it is of three types. The party that brings the action in a civil case is called a "defense." He has no judicial function similar to forensics and has no authority to order the arrest of any person. In all these cases, the doctor must appear as an expert witness in a court of law. In all cases, there is an element of uncertainty, and absolute proof is a rarity in any medical problem. Later, Greek and Roman jurists and doctors collaborated in the development of the principles of forensic medicine. In in cities with more than one million population, the Chief Judicial Magistrate and First Class Judicial Magistrate are designated as Chief Metropolitan Magistrate and Metropolitan Magistrate respectively (S.8, 17, 18 and 19 Cr.P.C.). The certificate should not be delayed, even if the doctor's 10 Essentials of Forensic Medicine fees is not paid. Medical knowledge and practice change constantly. Forensic medicine is mostly an exercise of commonsense, combined with the application of knowledge and experience, already acquired in the study of other branches of medicine, surgery, obstetrics, etc. Physicians were punished for negligence. In short, it deals with legal aspects of practice of medicine. Coroner's Court is a Court of enquiry, wherein Jurors are sworn to give a true verdict according to the evidence. The medical expert should be very careful when he is examining living people. (4) Magistrates courts : Magistrates are of three types (S.11 to 19 Cr.P.C.) (1) Chief Judicial Magistrate (S. COMMON LAW is made by judges when they deliver decisions in individual cases. If, during a medical examination, an accused says anything that might incriminate himself, it should be neither recorded nor reported. (8.63, I.P.C.). In the thirteenth century, a manual was prepared to aid in the investigation of death in China. His failure may make the difference between life and death or between freedom and imprisonment of a suspected person. Courts of law are open to the public. He should be thoroughly familiar with the problems of causality and manner of death. Prejudicial and sensational statements should not be made prior to trial. Secondary evidence means, certified copies, copies made from the original by mechanical processes, copies made from or compared with the original, oral account of the contents of a document (S.63, I.E.A.).
