Marksman guide maplestory

Maplestory marksman training guide. Maplestory bbb marksman guide. Maplestory marksman skill guide.

1. The purpose of this guide is to inform aspiring snipers and shooters about how to grow their characters, how they should train, what they should be careful and, above all, what makes them valid. This guide is specifically tailored to cartographers who raised their crossbow near lvl 70 and are looking for information about what is in front. To simply say, use this guide for details about snipers and shooters, and refer to other hiddenstreet.net guides for more details about bowers and crossbows. I'm gonna say this right now. Do not make a crossbow unless you intend to take it to the 3rd or 4th job. Crossbows do not have the attack speed or the bombing capabilities of the arrows that have the hunters. If you are not going to over lvl 55, choose the hunter over crossbow 2. Why Sniper/Marksman? f If you haven't maxed Crossbow Mastery, do so before 4th job.Otherwise, you can't add any points in Marksman Boost.120 < 1 pt FrostPre books, 1 Marksman Boost, 1 Sharp Eyes121-123 < 3 Sharp Eyes every lvl24-128 < 3 Marksman Boost lvl129-136
