Hello, everyone. Successfully installed on TX5 Pro Zenoplige - S905X, 2/16 gb - chipset 9377. The rom tested is: [v7.5] (UNIVERSAL) Aidan's [S905X] 1GB 2GB ROM. Everything works, wi-fi, lan, etc ... But I don't know if the remote works like I use a mini usb keyboard. Thanks for the great work @aidanmacgregor And the question about CoreElec on the sd-card? Hello, after upgrading the box to Android 7.1.2 or later with the exceptional Rom of @aidanmacgregor you need to install a terminal emulator on Android from the playstore or any apk. After that you prepare the SD card with stable CoreElec (19.3 matrix) and enter in the above box. Once done, launch the terminal and type: The box will restart from sd with CoreElec. We can do different things with this TV Box including playing files from an external drive, playing video on YouTube or sharing the smartphone screen on TV, all of these things can be easily done using the TV BOX MXQ Pro 4K. First inaccuracy When I saw the box I thought this was a professional device. The plastic is not of low quality and does not look like a cheap gadget. The box contains the TV Box, an HDMI parent cable, the power cable, the remote control and the manual. Device information The device has 4 USB slots, 1 SD card slot, 2 auxiliary ports (SPDIF/AV), one HDMI port, one ethernet port (RJ45) and the power port. From an architectural point of view, the MXQ Pro 4k is smartly designed. Power and HDMI slots are positioned on the back so they are not visible from the front. For cooling, the device has on the lower side a housing adapted to allow the motherboard to cool down. TV Review BOX MXQ PRO 4K I had a little surprise when I saw that the device was Specifiche per TV Box MXQ Pro 4K Android Chipset: Amllogic S905 Quad Core Cortex-A53 alla GPU 2.0GHz: Penta-Core Mali-450 a 600MHz+ Storage: 8GB NAND FLASH RAM: 1 1 DDR3 Operating system: Android 6 3D: Hardward 3D HDMI 1.4b graphics acceleration with CEC AV; Bluetooth support: LAN not available; Ethernet:10/100M, standard RJ-45 Wireless: Yes Supported formats: HD MPEG1/2/4, H.265, 4K-HD, HD AVC/VC- 1, RM/RMVB, Xvid/DivX3/4/5/6, RealVideo8/9/10 Supported media formats: USB SD/Rmbv/Ts/Vob/Mkv/Mov/ISO/wmv/asf/flv/dat/mpg/mpeg Supported audio formats: MP3/WMA/AAC/WAV/OGG/DDP/TrueHD/DTS/HD/FLAC/APE Supported image formats: HD JPEG/B SD/HD max.1920x1080 pixels Mouse/ Keyboard: The mouse and USB keyboard are supported; SPDIF/IEC958: Coaxial power supply: DC 5V/2A Power LED: On: Blue, Standby:Red Online apps: Skype chat,Picasa,Youtube,Flicker,Facebook, Online Movies, etc. As a general opinion, the TV Box MXQ 4k is worth his money. Although it has its own problems, we can ignore them considering that this device offers us important functions. How to Reset MXQ TV Box Pro 4k? Disconnect the device from the power supply. Inside the AV slot insert a matching or a thin stick until you find a small button, hold the button for a few seconds and connect the power. You must hold the button until you can see the logo on the screen followed by a restart. After restarting, you can stop pressing the button. You will have a menu on the screen. Using a connected keyboard via USB, select delete the factory data/reset and press Tab. Select delete all user data and press Tab. Wait for the process to end and then select restart and press Tab. How to share a smartphone screen on TV using the MXQ TV Box Pro 4k? Sharing your phone display on TV can be done by following these steps: Open the Miracast TV app (it is already installed). In the phone settings, select Share (Mirror) Screen (if you can't find this option, leave a commendation by mentioning which smartphone model you are using and we will try to help you). Note: In order to be able to share the phone screen, we must have both devices on the same Internet network (for example, both connected on the same wireless network), if they are connected on different networks (e.g. TV Box on wireless and phone on mobile data) will not work. Google Play Store does not open In case Play Store does not open after trying to restart the device, we can try the following correction: download on PC the right version of Play Store and Play Services. apk (founded on APKnirror.com). Make sure you get the right version; Copy them in SD card or USB flash drive; Remove updates for Playand Play Services on TV Box; Install .apk files from SD card or USB stick on TV Box. Restart the TV Box and try again. Thank you. Harry for this information; In case you have problems with the TV Box MXQ Pro 4k or you would like more information, please leave a comment How many more details as possible. Update 22.10.2020: If we have connectivity problems with this device and we have orange light instead of blue light, we should also check if the device's date is correct, if it is incorrect it can cause this kind of problems; problems;
