read Moress="MsoNormal" style="margin: 0cm 0pt"> Introduction: jennifer is very hot and is now very wet. he should have stayed in the rain moistened windshield while driving the silent vehicle to a stand still on the side of the
forest road. She would have come here for a college party and now her pride and joy, her little car had disappointed her. gave a grunt frustrated holding hands in disobedience. the wipers still cracked and fro and she could just make out a window light not far into the trees. it was late evening and he had seen too many cars to think that one would
come very soon. So he decided to make a dash for it. the light was deceptively distant and when jennifer had reached the entrance door of the white building seemed like a drowned rat. I say building
undescriptive doors. He gave a strong knock, the rain that drank her to the skin. There was someone who took the time to walk along a corridor on the other side. "Please, I'm freezing here." the fumbled man with some keys then opened the door. "Oh, thank God, I'm wet! "the tall man was understandably surprised; had so few visitors, certainly
never so late at night. in front of him was a beautiful young woman. had long browned hair and straight made black jet and shinny from the soaking rain. his narrow face was pale with cold red lips and ruby and bright white teeth against its refrigerated features. "I'm sorry, did you say that while you were there admiring her, then you pointed a long
finger to the sky highlighting your problem, "the rain? "he was silent to cheat the door. she was astounding; she looked so sexy in her softened state dishevelled; firm bust and narrow waist on two long legs perfectly waxed. "Are you gonna let me in or what?" jennifer asked, a little desperate. the strange man finally stopped and watched her pass. was
dressed in a white coat and the young brunette noticed a name badge worn as a doctor could wear. In turn it seemed ridiculous in a soaked summer dress skin, jennifer struggling to peel the fabric from its wide tits and curved life. He closed the door looking at the young woman who walks away, tracking her thin legs up to two high heels covered
with mud. She turned up and looked down her ruined shoes. "I was at a party and my car..."The man greeted a hand, announcing in understanding. "Do you have a phone"? asked to speak carefully, thinking Maybe he was a mute. Once again he didn't respond he just drove the road. In her cozy studio she tried over and over to get a line tone from her
antique handset. The man had disappeared letting her dry her body against the opening Fire. "Maybe the lines were down, who knows?" One thing for certain that would not have been much more help for her. "Oh, Er, thank you!" He almost screamed, surprised by the man as he appeared silently, pushing a hot drink in his hand. Again,
she didn't talk and Jennifer sat down, her legs together, dressed her thigh while sipping hot coffee. He felt a little nervous now. He would have wanted to talk. "Maybe if ..." Thud! When she arrived, it was the darkness that frightened her most. He couldn't see anything. Could you hear that? He didn't know if there were any sounds to listen. What was
on his face on his body? Wait, he couldn't open his mouth! Actually there was something in it; Maybe a gag? He was standing; It was defined of that, his arms were soaking from tension, his tips only managed to give her some support from the floor. He was in boots with a
high heel of some kind. And his body; Was she still dressed? Or was she naked under a second warm skin? He saw the steps of the descending foot. So the sound of a messed door, making a terrifying crack.someone was in the room with her. One hand touched the head and there was a scratch of velcro and his eyes beat the light.
"Mmmmmmmmm!" He couldn't talk, no matter how desperate he was. His eyes rubbed left and right in panic. She was in a tiled clinical room. He stood up. He was hanging on a rope at the low ceiling, his feet touch a glittering black slate floor. "Mmmmmmmmmm!" On the other side of the room was an integral mirror wall. His mind screamed.
"Oh my God!" He could see himself reflected, hanging there, and behind his table and other strange tubular devices. The tall man was also dressed in the same white apron as before. But it was his situation that reflected back, that made her the wreck and gargarisca the maximum. Jenny was suspended, on the tip tips in a narrow leather covered with
leather cat. Stylus horns with heel boots tightly thigh on her breast imprisoned with a horrible GIMP cap. He had a mouth-watering mouth sealed in Velcro and only a tiny shirt for his nostrils. His eye slit was open but the Velcro cover hangs on the ready side at any time to be placed. Her long brown hair had been thoroughly fed through a hole in the
back of the hood, giving her a pretty long ponytail. He could see his wide terrified eyes staring back from the mirror of the wall size. His mind was running. "Oh Jezz no! Why, because I! Ohhhhhhhhh, please, this cannot be true!" The strange man rotated a rachity cart in front of her. It was full of horrible devices. Some had no clue, others
seemedobvious. He made eye contact with her and she declared again with her beautiful eyes. The man put his finger on his mouth, which touched him. She admired her tense corporate prisoner, and then she started her job. Jennifer heard the chest skating alienating her naked bosio on the spot loosened. She moans like her soft sweaty melons
popped at forced straight angles through the two chest holes in his narrow cat suit. She had some nice, firm tits a little too big for her waist, dark and erect nipples for friction inside her suit. Man covers both hard breasts; tightening strong, feeling the weight and texture under your fingers and thumb. Jennifer bit what she had in her mouth trying in
vain to get away from her mauling. She moved behind her to grab both of them from the back, once again almost guessing the weight of some hard and mature fruits. The fingers and thumbs teased the nipples, pulling the sensitive meat, stretching and curing the tips. Mormon through his gag. Jenny's ability to show her disgust was severely limited.
Only his dazzling eyes gave an idea of the terrible unworthyness he felt. The fantastic slim figure of the girl was brilliantly accentuated by the black suit adhering to the skin. He seemed to go forever heels giving her an
upright tit posture. Both sides of her, hanging down were two rings on thick strings, as an Olympic athlete would use. He lowered to lift his long legs under his knee. He kicked and it was a fight, but one at a time fed his calves through the high rings of life so she was held her legs wide open in a frog crouched her knees in now bringing some of her
weight on the rings and ropes rather than all through her hands tied over the head. Jennifer's inguine felt terribly exposed, the skin creaking like her thighs now fatigued in stretching The man began to search his old trolley, whistling while he went. Jennifer was thinking about overtime. "He was a crazy doctor, oh no! Perhaps an escaped mental
illness?" He tried to listen to the sounds outside the room. "He was in a cellar? " The man worked slowly but methodically every action of bright intensity for the innocent cute girl. First he unleashed a flap under his horse; this has exposed two holes cut into the narrow skin of the thong. A hole was above his tight ass. He bit down and gargled like him
slowly, carefully inserted a horny ass up inside his shitter. He bumped into the horror, but was unable to make any real resistance. His anus was so tight that he felt as if he was inserting an arm the bulbous head would comfortably enter the edge of the sphincter, keeping his muscles continually spread around the exposed tree. It ran through the
center of the plug a rubber tube of a quarter of an inch with an attached tube. He didn't realize it at the moment, but this would allow her to fill her asshot water, piss or anything else you might mix into a slimy solution. In this wide-open position, she immediately discovers that there is no way to stop him from licking her and touching her slit at will,
perhaps by taking a stool under her so that he can sit and take hours at a time. For the moment he fattled a 6-inch ribbed dildo that tissy the taste of his tight pussy, a little a little until his vulva has almost swallowed the end. The penetrating foul of you pressed against her her ass to make her feel embarrassing full. When he was satisfied with her
pussy held him quite deep down, then he stayed the horse's pact, sealing him inside her. Greaded we realize that he could leave these monsters in her indefinitely. Infinally he leaned his mouth beating and jenny cough and tried to talk. The jaw of her didn't close. Grimp Among his white pearl teeth was a thick rubber o-ring. The hole of her was about
a wide thumb and the tongue of Jennifer darted, trying to form words. She gave a belly barn of her feeling the sweet sound of her that echoed around the room. The man examined the contrapport to make sure he is ready, he would not be able to resist a pipe that would not have been placed on his tongue so that he could eat more vile throat when it
is necessary. She has not satisfied, re-attached the velcro of her mouth, Jenny shook her head in frustration. She greeted her life in shiny leather, under her legs, through the deception of the groin where the dildo was buried until the end she reached her last thorn of her, with the tube that dangulates from it. Looked into the mirror with growing
horror while she attacked the tube to a container hanging from the wall. Wrong a valve and the container came to life, whisking silently to himself. The tube pushed out of her cavity, she was attached to a deflated zouge rubber balloon.
valve, Jennifer now full of leather balloon filled with air. This was in turn accentuating the feeling of deep buried pussy dildo. The man was finished for now. He sat down, the separate legs, on her chair directly in front of her. He eyes of him darted towards her hand as she reached the pocket pulling out the car keys. She launched them in a bit box on
the floor. He had moved his car stupid bitch was exhausted by gasoline. Well, he now has been securely hidden under a waxed canvas in the garage just above their head. When he stroked her groin but resisted the temptation to exhibit her hard cock hungry to her. After all he had a lot of He shook his head in despair while he remained and
replenished his eye on the spot. It was sown again in the darkness of the step, its sorrowing fissure by an adherent, intruded fat; His scrupulous ass and moaning from a pressurized leather balloon. The man passed out the light that immersed the room in black. So he locked the door while he left. He did not know at the time but in weeks to come to
look back at this time of a captivity rather as a long distant piece of It was the next morning when the police arrived at his door. The doctor spoke so little these days that he found free to actually talk to someone. No one, he hadn't seen a young woman. Not even an abandoned car. The cops had listened patiently to him. He seemed anxious to talk once
he had started and in the end they must have said a hasty goodbye to each other. As they were leaving, they both looked wise to each other. All that time alone, with only his patients for the company. She was definitely taking her toll on him. "It can't be an easy place to work." Detective confessed Smith. The other nodded in agreement. "Yes, I think
his last nurse had a breakup, that's why he's all alone." Smith looked back. "Hmm", he said as if in thought. The doctor looked at them. He hadn't spoken for months, well, not in conversation. Now he felt liberated. He wanted to talk again. He looked at the floor, at the cellar hidden underneath. "Yes", she thought joyfully. "I'll talk to her. I'll explain
what I'm doing. After all, the nurse crow got it. That's what made her such a good assistant. I need that green card he never objected to, well, not until shortly before his breakup. "Jennifer slept like the dead. The silent man had come back last night and poured a sleeping solution into his mouth. She had slammed and swallowed her body guickly
going to limp as she fell into a sleep. Now she was awake again but still in total darkness. Her ass was aching from the big swollen ball that connected her. She felt as if she had crap at the end, her muscles slowly weaken her emptiness she wants to release. The pussy felt numb the fat dildo buried completely in her hole. But it was he stretched his
thighs that made her more complaining. She had been on her knees within these rings for a full night, her calves limp, her groin wide open, the skin poured into the skin poured into the skin taking the sweat heavily. He had spoken!" "He had spoken!" He made
a agitated mountame that shaking his head still unable to see. The DOC pitted his eye patch and slammed flashing into the cold electric light. She was limping and exhausted her tits sparkling with sweat still pert round and full. The man stretched by stretching one of her boobs which remove the beautiful fat dome. "The cops are looking for you. But
don't worry they're gone. Now we won't be disturbed. "" He had still spoken! "The DOC continued to crumble the tassel, Jennifer biting the disgusting gag." You're so thin and sexy my dear. My last assistant served me. Well, but the poor woman ended up as one of my patients at the plan to before my experiments could be done. "Jennifer looked at
the ceiling again." Don't worry, "add with a smile." They're all locked up in their padded cells. Jennifer's eyes widened. Now he's got his full attention. "My experiments are in sexual pleasure! I've had a lot of hours to perfect my research and I assure you even in the situation you findin your body he will respond. "Jennifer banged his
head turning to him. There was little else she could do to show her contempt and rejection. "Don't be embarrassed, my dear. Being my assistant will be an experience for you. Let me show you the kind of feelings I have in store. "The doctor slammed his hand on her dummy slammed over her aching pussy back. The flap was open a bit and could touch
the flat end of the buried dildo. She bowed to the slight extra pressure lurking inside her. His finger touched a felt brass nut on the base of the dildo. From his pocket he produced a long length of wire with a crocodile tooth on both ends. He quietly explained his actions. "The dildo buried in the hole is made of metal with a rubber skin. The tree has
holes pierced through the metal rubber and one at the point like the eye of a man's dick. I'm going to stimulate your tired pussy down the tunnel. "Jennifer began to shake. He could see that the wire following him as the doctor attached to a square box
that looks like a 30s radius. He escaped from a switch and Jenny started spinning the big dial, and Jenny started spinning the big dial, and Jenny started shuddering. She clung to a long moan. The rubber-lined dick came alive inside her the current low but terrifyingly real. The tip of the dick was
pressing against her neck and the electricity inflated at the entrance of her lap. He began to writhe as he slowly increased tension his hips by stranding his pushing tits, erect and proud. His clitoris was swollen, the slow during the night friction which makes him tender. Now the electricity has buzzing the fleshy bud. She couldn't speak, but in her
and desperate. "Uggggggg no more stop turnnnnnnn uggggggg!" The doctor could see her groin making her limp calf as she tried to kick. He knew he was trying to plead guilty, but he would have left her gagged now. It had reached the optimal setting on the dial, not enough to burn, but only bearable. "Poor Nurse Crow had taken many hours of
practice to find this ideal environment." He said proudly." But you, my beloved, are fortunate; you shall experience only the perfected fruits of her "He moved to the suspended girl who masturbates, once again caressing a tetta pinching the nipples feeling them excited in hard." Well, almost there. "He said he touched the air cylinder on the wall."
Yours Body excites you dirty girl. Don't fight it, let you come. "Jennifer just heard her clitoris on her focus her hot her pussy, her nerve ends up betraying her." Oh, God, I can't resist! Uuuuuuugggg! "He felt her asshole she held her, the swelling of her to her breast. Oh noo! He started to convulge her pussy trying in vain to squeeze the electric
cock out of her. She tried it. Tried. scream, her clitoris unbearably tender, exploding in orgasm. The ass she tucked her muscles clenching harder and harder to crush the swollen anal ball. On the wall of the cylinder he has made a noise sounding like a small bell indicated the air has been pushed back against the valve as the Jennifer spasmed;
pumping the air from the back of her ass, rather like the warning bell when a tire is fully inflated at a gas station. "Ding, ding, 
and the current was still rough inside her. Her orgasm was making places before his eyes. He had reached the explosion point total that the clitoris was tender moment, have the faith. "Awwwwwwww! # E 'so' # The power suddenly she's gone and totally hung limp, his ass relaxed allowing the ball to inflate, its juices that are around hot horrendous
dildo. The doctor removed her pussy flap and slowly pulled the rooster. "Unlock!" She Porò from the hole the air about her making her open slot angle. She wanted to pee so bad and the doctor must have known because © held steel bucket under his projecting ledge on the belly with his hand forcing the issue. "Do not be shy, emptied here." Jennifer
closed her eyes as she urinated in a tin box. "Well," the doctor said when she had finished. "Now I think you can do with a rest." Jenny's legs were giving her as she finally lowered them to the floor, fat ass inflated by pointing to the sky
the air hose as a human tail. He pulled her body standing firmly with both hands; unfastening them, then pulling them behind your back to bind them together. She and 'placed on the floor as she pulled a case of human dimensions from the corner of the room. She cleared the table of the truck rotated by lifting the big box on the steel surface.
Opening the lid, he then took Jennifer in her. She tried to kick, but her legs were like a runway. The case was about 5 feet long and she had to be laid on the lateral knees and tits pressed against the front wall; the butt of her wrists bound and her feet
against the rear heel. The box had padding and could rest his cheek on a solid cushion type material. There was a small slit that allowed the anal tube to protrude out of the box when the lid was still full of or Ring Gag her dry her tongue by throwing
through her. The doctor looked along the front face of the box. He detached a panel at her chest. The forest came away and the magnificent breasts of Jennifer could be seen crushed together pushing ahead. "Push Your Tits Through The Hole." You ordered. He ignored it. "Dodo He snarled threatening. The soft melons of her appeared as two moles
attempts from their den. She could hear her hands grab them by pulling the tits as far as possible. Jennifer pressed her arms and her hands back against her wood wall now having a little more space behind her. She felt a strong cord was rolled around each toil, and pulled tight. The doctor made her young Bulge tits of her as she bound them together
then has loops the coil around the box. She could now not pull her tits inside her if she tried. She finally had finished. Jenny felt overwhelmed and imprisoned worse than before. She's tits were exhibited and she couldn't see what she was doing to them. She
could hear the CLATTER and feel the cold touch of metal, and then you finally explained. "I leave you for the moment to do some precisely. I attacked your magnificent tits with two adapted milking tubes. Like what a cow could experiment. Now you are my little cow. I know I won't get milk, but the feeling of Sucking mechanical for hours will be an
experience that I am sure. You would be surprised how excited your breast can get a pottering with constant attention. "Jennifer struggled in the box, but it was so narrow inside with his tits now tied to the outside of the box that could not move. The doctor continued. The anal flask is now on a new setting. The cylinder will inflammer and deflect it
every 30 seconds. "This will give you a nice fisting action in your ass." The doctor got up. "Be good," said tuning to the door, flicking a switch the cylinder and pipes that break into life. He felt that the suction cups begin to take a long drawn Gulps on each nipple. The gas cylinder is inspired as it deflated; Then, a few minutes later, quickly quickly, an
gagged groan from Jennifer. She looked back and could see her nipples already half a thumb in the suction pipes the machine eager to draw milk from where it wasn't there. She could feel the groan of her again while the ball then expanded then collapsed like a fist of opening and closing in her ass. She's fucking was turning erected in her trousers
her desire to almost overcome him. He slammed the door behind himself by pressing his back against it, rigid body as if he were holding his breath. "No!" He said, in angry frustration. "Check yourself!" Upstairs he knew he was waiting. I did it in his desk, the one he held closed. He was domesticating him, he heard a gargar through the door while
Jennifer was sucked and pumped more and more times. "Oh, God, you'll have to put it soon. Because he has always been in the way he experiments of him?" He took a deep breath and turned to him studying him. The They didn't stop. Above and above the tight seal seals lubricated made her hard nipples stretch deep into the airless tubes.
Jennifer moaned in her head the feeling so humiliating. She was milked on her side in a fucking box! She tried to move her ear as the tubes shake a little while her braided boobs bounced off. He didn't. He didn't. He didn't. He didn't was the worst the evil sucking, the constant attention of the ass or the tightness of her cord tied tits. She felt as if they were inflated likes the worst the evil sucking box! She tried to move her ear as the tubes shake a little while her braided boobs bounced off. He didn't.
balloons, squeezed out of shape the milking attachments causing her desperate nipples to scream with feeling". Oh dear, how long can I hold on?"They were her thoughts as she sobbed to herself.*******Jennifer had only wished she had a great night out. The party had been so far in the countryside. Too far for an evening trip perhaps; but she had so
wanted to go. She loved the attention she got from her male college friends on nights like that. She knew she was sexy; she looked like that movie star with the double name in the barrel; or so she had been told. Hell, he had the same name as you. But now she felt insane beyond measure. Her short tight summer dress and fucking me shoes with pink
high heel had made her so confident; a sexual predator too. And even though she was wet in the rain, she knew how hot it was in her sticky suit. He remembered how he moved his ass and bent down to adjust his heel straps. He couldn't help himself. Maybe he would have helped her without encouragement, but when men were involved and with her
looks why not be doubly safe. Was it his actions that pushed him to the limit? Was he a lonely sad lonely wanking himself deep in the woods; or had he unwittingly discovered more; an evil resident, waiting for his next victim? Once again he tried to fix his body unsuccessfully. The crippled box looked like a furnace, her second skin glistening. The black
matter hugging her thighs creaked as she tried to move. The milking machine continued in an endless cup the two tubes jumping to attention at every suction. The rubber mouths on the gel-coated tubes pulled out the nipples over and over again; the skin on its beautiful domes tightened until it had two hard melons. Her groin was also hardening the
narrow nerve bundle that ends inside her pussy wall feeling inflation then rapidly deflate the anal fisting balloon. The hours went by. She was half-conscious when the doctor began to unroll her boobs from the cable that tied her to the box. In his delusional state, he had not even heard him enter the room. Tit sucking was all he was focusing on now, at
pulled the tubes and made her bite her gag, beating". I'm really tight don't you think my dear?" He joked, pulling again without effect on the grip monsters. Jennifer kicked her high-heeled boots on the wall of the box in protest. The lid of the box opened with a wooden slap and she felt him lifting her out. He had a lot to say. Her arms and easily chose

not move to stand or down to pull away, forced to remain in his correct celled position. The man finally and with a little disappointment turned off the milking machine. Jenny gave a gray grenade still in complete visual deprivation. In addition, the anal balloon had stopped swelling and deflecting and remained passive, still in her ass, but now limp he
then knelt next to her ear. "I'm going to remove your gag. But you have to be good. Do you understand? "Jennifer nodded again. "Just get this fucking gag for God's sake", she thought to herself. She was gagged for almost 24 hours, she
Then suddenly he gave her his first unrestricted moan in days. The moan raised in pitch as her belt-wrap protested. The Doc was twisting the suction tubes the fatty seals bursting from his sucked misused meat. "Plop!" The second came off, her beautiful durable tits watching Mashapen; The few centimetres around the nipples raised like the bell
tower tips of some dome of the cathedral. He slipped a finger through the raised end of one. Gronato, still afraid to speak. His eyes are still covered with his experiment so far. "Please," he said nervously and very, very quietly. "My ass, your
ugggggggg!" He didn't know how to describe it. He felt inflated and tender but at the same time disgustingly sensual. Doc told her to Sssshshsh. "Don't ever worry about your ass is your tits that are taking the attention." Jennifer opened her mouth in silenceWhile his finger stroked a suggestion. Then she felt that the doc reached his neck. He gave a
shriek that feared the worst, but then fell in relief. He was declaning his head mask. The narrow rubber of him walked away from him's skin, the sliding mask of his head with a small difficulty until he slowly released his hair in a roging brunette mane framed the pale stunning face of him. Shake your eyes closed the light too bright to endure, and only
after a few moments he could start distinguishing images and shapes. He looked at the passive man tall with an empty and professional face. Then he tried to look down but his chin rested on the wooden warehouse. "Awww God please, I don't want ..." The doc welcomed a finger. "Now be a good assistant and dismissing". He said with impatience
"You know how important this job is." Jenny saw them then! She knelt near the door there were two straight figures. They were inflated men. She couldn't tell her age, but their milk fat mouths were the gagged ball, her arms tied inside her jackets, their wild eyes. "Beyond here!" She tried to them. The two men were stumbled and crawled on his
knees, obedient, grunted and puffing as animals. They had seen the woman dressed as a thin rubber was elongated and bent in place. She had a thin tight life; That incredibly coating in rubber with the tail of the tube and those voluptuous tits Munsa of her. Now they could finally see her face of her. She had a thin tight life; That incredibly coating in rubber with the tail of the tube and those voluptuous tits.

The men were crazy from the desire of their bodies his bodies related and limited frozen throats as they grew up on their gag. Every man was pulled into position from the DOC; Both are narrowing

"A woman doesn't need clolitorial stimulation to experience the final pleasure." She explained by pushing the heads of men tied to abused nipples. "These poor unfortunate suck from you as if they were yours. The pain will contact
you, trust me." Hungry men's lips wrap her nipples and Jennifer screamed with feeling. "Aw no, no, nooooooo!" The doc smiled, the mouth of men fast and hungry, slavery and sucking, oh suck! "The revolution of you is not true?" She said in joy. "These two dirty men, both big enough to be your father with an aspect of it". She caressed a man's head of

groin, her pussy muscles began to contract, her head swam with discomfort and repulsion. Then he felt a new feeling. The doctor passed a hot aqueous solution through the back tube with a large, comic-looking syringe. Her ass was swollen with hot liquid". No, no, noooooooooooo! Jennifer screamed with humiliation and perverse arousal. She was
giving her a fucking enema while two old men were sucking her hard, voluptuous tits". No, nooooo, dirty bitch oh, oh, ohhhhhhh!"She couldn't go on, the pleasure was suddenly overturning like a dam had collapsed. He roared with his belly changing excitement. She felt her pussy wet, the desire to rub herself unbearable. She shoved her melons harden
relief due for a long time to a horrible but explosive combination. He gave a pig as a grunt of satisfaction. The Doc was sweating from excitement. He had to get the two men out of the woman before they sucked her boobs. They had to be slapped and stabbed in the cowering presentation. Jennifer was slumped into the action and looked like she might
suffocate. He unlocked the wooden neck of the woman falling on her side, her ass still coughing mud her tits bright red, her face red from an orgasm induced boobs". Please don't let me go anymore". She complained looking at the doctor. She was taking notes in a book and spoke without looking at her". I never asked your name", she said, her natural
way of shaking her". It's Jennifer! And I really want to go". She replied frustrated, but thankful he seemed to be talking for that answer. "Who?" She coughed not waiting for that answer. opened to a typing noise. In launching the dark she struggled to deal with the noise. Tap! She seemed to come from the compartment door. She heard a slow grinding noise and saw a flash of light off the other room. Someone had put a hole in view of strong steel door. "Jennifer" A deep husky voice called her name in a near whisper. Jenny sat
down and then slowly came up. "Jennifer let me in." She continued almost as if the nursery rhyme. The stunner tied Ginger came up to the door. "I can not." She whispered to feel an increase in relief. Someone was trying to get her out! The voice replied. "Yes, yes you can, look at the keys on the floor in front of you." Jennifer, his arms still tied behind
her back stopped moving, she was confused. "What?" She looked at the floor and saw something. Kneeling down her she could see a key that shines in minimal light. "But?" she explained to her voice, and passamela. "The stomach Jenny cominciÃ' to
spin as she left the key where she was and he got up, it was still closer to the hole." Why would the © key? "She said that the alarm bells sounding in the head . The He stopped for a moment then explained still in a deep deep whisper. "She put it there, cursed. That doctor's cock! When she realized that she could no longer keep myself locked up."
Jennifer's eyes were fixed through the visual hole trying to see where her voice He was coming arriving Nothing made sense; he kept asking the question in his head". Why? I don't understand." "Oh, Jenny let me in". She pleaded in a sweet, childish voice. Then realizing he wasn't answering it roared in anger". Let me into you fucking bitch!" Jennifer
screamed like a naked figure filled her sight. It was the doctor who was sure. Tall, thin, but naked. Oh so naked: oiled and shiny her shaved cock looking monstrous, painfully erect, a solid nine centimeters of rampant flesh. I say she felt safe because her face was covered with a white leather mask, a red cross on her forehead, the blackness of her
mouth and the holes in her eyes that made her look like a Halloween monster". Oh Jesus!" she cried, pulling back, her chest was panicking. He approached the observation hole, growling his mouth drooling saliva". Let me in. I want to play with you". Jennifer was now pressed back against the far wall. His fingers clung to the crack in the door trying to
tear the heavy frame off the wall. He screamed in anger unable to reach the stunner bound breath curled up in a corner. He began singing frustrated unable to loosen the door. Shit, shit! Ugggg my dick is killing me uggggggggA"A". I have so many toys for you".A" He moaned. He was pushing a buzzing object through the hole. I was like a bundle of
petrified girl cured herself on the bed and only after ten terrible creature had left. Jennifer was woken up by a fluorescent light. Her cell was lit up as daylight the bright wall upholstered white even the ceiling; the black of her high-heeled bondage cat dress accentuated by the surrounding
environment. She blinked her eyelids and tried to stretch her arms, numb from having been behind her back for so long. There was someone knocking on the door again". Ah, young lady". It was the doctor, acting as if nothing had happened; shaved, dressed in white, with the clipboard under his arm". Can you hand me the key, please?" Jennifer almost
laughed". No fucking way, sad fucking psychopath!" The doctor didn't get angry as soon as he sighed as if he already knew what the answer would be". I gave it to you for your own good. I know you had a visitor last night. The nurse sang in her cell, too. But unfortunately I forgot to do her the same courtesy". She said in a resigned voice, looking at the
key on the floor of her cell. Then he changed his approach. "You've been like this to know, maybe we could remove most of your ties". Jennifer paused for a moment. She was locked underground, tied up with no hope of escape. She had to keep him in the dark. "Okay", he said softly, "but I am so hungry and thirsty". Once the doctor had the key, he
came in carrying a tray. tray. He sat down while dissatisfacing his arms keeping it hidden in the seat. Then he walked away from the door and didn't look at it." Now be a good girl and eat. We have a lot to do today. "He almost finished the food and threw herself
on the bed. She acted quickly and in a minute she was asleep again. The nervousness of nothing slowly, always so slowly relapsed. He saw forms, then his mind made tricks. She had a strange feeling was on his inguine now. She was moaning the pleasant feeling, the dream arouses. She
complained louder about the feeling of being restrained somehow. Slowly he was coming here. She was on her back in a white operating room, naked no longer in the zombie suit. He tried to see the doctor focusing
Her legs were banged on ankle-related brackets in a birth position, and Jenny stretched her neck to look down on her hard tits perfect to see what was happening between her legs. One face looked through the scattered thighs. She was a blonde woman, sexy lips and dark shadow, her eyes deep oil pools, devoid of emotion. Her lips shone, her pink
tongue looks tired. "This is Nurse Crow." The doctor announced." He's been praying for some time. "Jenny crashed her head in denial. "It's disgusting, dirty... "The doctor smiled. "You were vocal enough while I was sleeping my dear. Yes, Nurse Crow delighted you with her impatient language and believe me you're enjoying it. "Jennifer started
swearing and trying to get off while the blonde whore pushed her mouth on the girl's tender clitoris and continued her job. It's just... He realized he had his hands tied to his head. She was made again. Her pussy was sweating with desire. The nurse had kept her on the edge of her climax for a while waiting for the drug to wear. Now the slightest
pressure has made the moaning and spasm. The doctor was opening his white smock his hard shaved pink dick coming out. "I find humiliation increases sexual climax." The doctor was opening his white smock his hard shaved before, now he could hearThat
slopping as his hand stretched his forecast back and forth. Flip! 
tits. As he did this he looked down the nurse as she licked licked Then he returns to Jennifer's eyes. "Exactly," she said, seeing her wild desperate her eyes. "You're making you come. He began to grunt and endowed the dock of her; At the same time the nurse thrust her language in depth as he could go down Jennifer's wet tube, pinching little girl clit
and dripping in rivulet along the curved side of her tits. She was turned from sight and smell; She's juices rub her on the face of nurses. She couldn't hold back anymore. The screams of pleasure filled the room. She came, returning back from the table; The basin of her settles against the fat lips of the crow from nurse. The climax was surprising in the
power of her jenny panting and panting taking what she seemed slowly back to earth. The nurse knelt exhausted by her efforts. Jenny looked again at her eyes of her dead of her asking again what she seemed slowly back to earth. The nurse knelt exhausted by her efforts. Jenny looked again at her eyes of her dead of her asking again what she seemed slowly back to earth.
experiment of him. She reduced the coat and adjusted the pencil pocket, then she started pulling a closer trolley again. She Jenny could see a car above it. It looked like a metal box with a boosted auction from a hole. At the end of the cane there was a long fat dildo. He was coastful and had storks up as if he was a astrellist slug. Jenny began to wince
the air. The DOC smiled by pushing the robot cock machine between the split thighs. He gented his teeth with anger as the rubber tip the storks and all slippery easily in her hot hole. "Now you are in what we call the edge plateau," he explained to browse a switch on the machine. "From here you can organ many times, again and again. All that is
of lubricant. but it was not necessary, the pussy of jenny got rid and moved as his juices seized and suffocated the intruder of rubber. the doc increased speed always so slowly on the pounding dick. He had serious hours of research in front of him. The dick was inflexible in his mission. inside and outAnd so on. Jennifer's body twisted and shook her
hands behind her head. She was moaning over and over again the intruder of fat rubber making her inner walls streak with his card clip monitoring the situation as time passed. And I was riding the robot cock for almost two hours. Her pussy entrance is decorated with foamy jelly her
began to scream. He took a gag with the ball from the cart and forced it into his mouth, tied it closely behind his head. The sound of the bell repeated over and over again. He nodded Nurse Corvo to continue with the fucking robot and then ran upstairs. At the official entrance door Smith was becoming impatient. He knew the doctor was there
because he never left his exclusive hospital. The door was opened for the tenth time." Oh, Officer, how can I help you? »Smith was surprised by the greeting. The last time he had barely spoken two sentences." I'm sorry, but now the authorities are starting to search the buildings." The doctor shook his shoulders looking for perplexity." For the missing
girl," continues Smith. "Remember? »Once again the doctor was there silent. The police officer pushed over the doctor and headed towards the studio." I'm sorry, Doctor, but let's go upstairs." The doctor began to hear a hot redness come on him. This agent Smith would ruin everything, all his research. The doctor ran behind the cop who was
standing in his office now. He recalled the drawer of the desk at the top, the Tazer gun, in case one of his patients had fled at night and had come to look for it." The book of visitors, you have to sign". Smith crossed his arms. "Stop jerking off with Doc." He said impatiently." I have no time for this." But the doctor raised his hand, understanding the
passport." Then he gave a cry of realization. In the rush of taking the Tazer, he forgot what was lying next to it looking up with dead eyes». Hello doc, said the white leather mask. "It's time to put on me, don't you think?" Jennifer even though she was undressed was stilllike a whore the big dildo slurping in and out of her horny tree. The doctor was
approached her. She had leather wiring wrapped around her waist that hooked the balls and around her waist that hooked the balls and around her waist that hooked the balls and grunting. He shook his head and waved his finger as if to
say that a bad girl she was holding him at bay for so long. Suddenly she calmed down and wiped her hand through her sparkling chest. She had not yet spoken a coherent word and remained silent as she began to take her
back in the basement. Jenny's eyes flashed in terror into her mouth full of greasy redball gags. There were already two people in the room.sa in a squeaky wooden chair was Officer Smith. The young man was naked, his strong body tied to the chair. He even had a dance in his mouth and he was moaning
repulsion. His dick when Limp had been folded double and with elastic bands and using a tightly tied insulation tape. Yours. He had a belt around him that seemed to hold something in place on the seat. Jenny couldn't see, but Officer Smith had a fat vibrator up his ass cheerfully buzzing to himself held by the leather straps. Poor Smith, the feeling and
sight in front of him were easily arousing his dick; that dying he wanted to unfold, but could not. The policeman uneasily shook his eyes full of terror his cock feeling as it would explode. From the other side of the room the view he had to endure was one of irresistible excitement. Nurse Crow was hanging naked by his arms and legs, suspended from
the ceiling. The big boobs blonde was looking down at her legs and arms in a parachute position. The doctor had tied her big full tits by attaching the two suction tubes and already her pink nipples were deep inside the cylinders. She also had a crotch belt, a 10 inch ribbed vibrating cock spurred her pussy and tightly fastened. Her ass pointed to the
sky and a tube ran up to a gallon container slowly feeding some kind of liquid into her rectal void as she writhed. Nurse Crow could not scream because she was wearing a crippled black mask, what Jenny had come so accustomed to. The eye holes were closed and the mouth hole was now a double-end black dildo. One side protruded out like an
elephant trunk raising the other end by gagging down her throat. The doctor slammed the door, a numeric keypad looking inside. There was no escape. Jennifer couldn't accept what she was seeing". No it was all a dream, yes a dream! "The doctor opened her wrists and legs but it didn't work. Where could she have gone? He opened her gag and threw
it on the floor. Jenny began a long confused plea, hoping to negotiate with him. Then he helped her swing her long legs to the side, sitting while she tried to communicate with him. He gently helped her stay. He seemed not to pay attention to her twisted apology and her plea bargain. Knowing this, he began to laugh desperately, shaking his head madly
almost like an obscene circus. The doctor, in the white mask who smiled at her constantly, was like the clown boss. The policeman shook his head and looked at her with crazy eyes. He just looked back, giggling like a fool with his pitiful but complacent eyes. The doctor was enthusiastic about her captured beauty. High legs, long and firm, with an
hourglass shape. And those big, hard tits pointing like twin domes. Her hair hung around her neck, her pretty nose still upside down, reminding her of the arrogant way her alter ego first met her. But now he no longer spoke with his white teeth hidden under his full, shaking lipsÂ"Well, it seems that you finally Your bitch, right? I can do what I want
for you now and its best to obey and take it. You should not have been hiding from me the first time, now your experience will be even more uncomfortable." Oh, God, no. He said he looked at him quietly with puppy eyes, "Please let me go." The doctor shook his head. Then he gave a diabolical laugh". You know better than that Jennifer." The
policeman was and cough through her gag. He didn't have backup. In fact, he didn't tell anyone where he'd gone. He could have reasoned with the Doc, but this was a crazy man. "She's so pretty, isn't she?" The Doc was mocking the hand of the living hand to pairing a stop. Jennifer was now resisting a little longer the huge frame of the Doc Towering
on her. He looked at the man with a double bent cock imprisoned. "It's enough to get a tough man, let's see how long you can hold out when he starts complaining." He pulled both arms behind his back, tying his wrists as he pushed forward. "It's enough to get a tough man, let's see how long you can hold out when he starts complaining." He pulled both arms behind his back, tying his wrists as he pushed forward. "It's enough to get a tough man, let's see how long you can hold out when he starts complaining."
like Dr. Nooo wounded the corn around one then the other fabulous breasts. She pulled the corn around one then the screamed! He was sliding the wire over a roof pulley and waving with his strong arms. The pen was lifted from its castles into the air. She
screamed her feet again now on the tip of the toe of her shoulders pushing her as high as possible most of her weight took on the cord tied to the cord her toes which give the slight relief. "We'll see you hanging on your boobs for a while while I work on you." The thick DOC chuckled looking for toys. "Oh Jez Let Meeeeee Down Doooooo!
"Jennifer Wailed.smith was squeezing her ETH tee in frustration. Looking at the gorgeous girl hanging like this his carnal lust rushed him through him. She shook her head in the rejection of her dick that is already trying to harden the increasing pain. Doc was focusing on the point girl's stretched ass. The Doc dragged his hand over his curve,
stretched the ass of his finger, which was slowly squeezing against his anus. He grunted and she screamed like a finger slipped into her tight leathery anus. He spun while pulling his sphincter. Jenny felt the finger seemed to be massive in her narrow hole. She gave a long moan as the strings stopped on her celestial tits and then she heard a secondary seemed to be massive in her narrow hole.
finger probe into her back entrance. Pressure made her forward pressure, her dry and unique anus. The Doc removed her number and a jelly tube popped out of her fingers. Then he repositioned his hand. "Now Jenny will open up this time." BiÃ2 the lip while its wing muscles have given way to the lubricant. "Oooooooooooo!" She had her two anointed
finger digging into her edge that stretched it out. She screamed, unable to look down, tried to see her shoulders with fear. She began to pump her hand against her fishing ass cheeks, her two fingers that fucked her ass with purpose. He could hear the wobbling probes pushing and twisting of his back. He lifted his tips trying to stop
his fingers so deeply his tits bouncing on the thesis cables. "Oh, oh, ooh ugh, ugh," He could sense that he was reaching something with the spare hand. The Doc had a long twisted dildo and while he removed his loosening fingers slowly began to relieve this new monster in his donkey. "I'm going to give you one The exam with my hand later, but
first we have to loosen. "Jenny shouted and implored while twisted the oily vegetable like a monster in the ass. His tits were puffed by the cable that made them shape balloons. The dildo felt like a flag pole, inside her. He grabbed him at the base With both hands that pumped it. "Ride it, rape! "He looked at the agonized policeman that his cock
rubbed into his ties. Do you like this fat in the ass? A bit like what you have. I bet that your hungry cock would like to replace it eh? The policeman could only look at the ceiling in comfort. He continued to push the dildo inside and out of his ass making the toes almost leave the floor. "AGGG! Jennifer screamed while her hips were put forward her
body suspended her pulling hard on the rope of tits. "Oh, God, stop, please leave me downggggg!" You have pleaded. The doctor pulled her dull and long ass out. "Soon," he said he gave her cheeks a hard slap. She kept her cock erected in her hand to masturbate her hair by pulling him back to reveal the purple head Glisten. The other hand was
raised and splashed again on the cheeks ". But first a spanking and fuck I think!" Smith was in agony now. The cock of him wanted to rise straight the scene in front of him unbearable. Jenny had bounced and slaughtered the tits that swelled on a narrow rope as she had embraced her more and more times. He was almost pretending when he finally
stopped and he was placed behind her. She wouldn't have been penetrated by him in two days of imprisonment. She now she was sure he would have invented for the lost time. She squeezed her teeth as her long rod pushed her on her ass and the rigid length of her by lifting her body from her floor. The feeling was one of the total humiliations, the
moment before she pulled back taut. Every thrust that takes her on her elastic tree of her fucking pussy! She has grimnished the obscene while she fucked." Cling up to your hard tits, cling to every deep thrust of her ass. Let you plead more bitch! "Jennifer shouted and shook his body covered
with sweat. His cock felt so deep as if he was trying to climb inside her. The tits were numb his shoulders and his arms also looting feeling the doctor held his baby Life while he thundered in her looking down at her awesome length and disappear from her strained anus. "Yes, yes, it's that bitch who's moving my dick, ugggg! "She began to push at
enormous speed her hips a blur her cock like a pneumatic drill that screws inside making her teeth chat with the vibration. She heard it burst inside her. The hot damp sperm seemed to cover the inside of his tunnel stay there like paint. His shots were rapid fire as a cough spit of unloading his dick by emptying his load with animated relief. He
dick slipped from his ass as a dirty wet eel, official Smith gargling in the pain of the erection view. He stood still watching his sperm from his ass. He moved to Smith again talking to Jenny while he went. The policeman likes you." Dr. Nooo teased by examining his prisoners captive cock then to the buzz anal dildo that was forced to sit on . Smith's
eyes were wide open in a crazy look. He was losing his mind!» Jennifer», he said gently.» I'll let you down in a minute and I want you to serve this cop for me." Jenny looked at the tail of the eye shaking her head. "No, no, no, no, no, no, no, no, no, no month is mouth and found what he wanted to push the ball back into his mouth
staring behind his head as she beat. Then he looked at the hanged, tied, gagged and blinded crow. His suction tubes for the tits got tired to suck more nipples and tits and the nurse Crowe was very uncomfortable». Hmmm, I think one of you is ready to help. Beat. Then he looked at the hanged, tied, gagged and blinded crow. His suction tubes for the tits got tired to suck more nipples and tits and the nurse Crowe was very uncomfortable.
now also embassyed. He carefully lowered the nurse by removing the tits gently massaging the nipples back into shape. Then the dildo shoved into her pussy and tube in her ass. Then finally his double dick finished mouth, nurse Crowe squirt as her eyes and mouth came visible. The nurse gave an embarrassed moaning like her ruttated
ass on a pint of liquid on the floor as she tried to kneel. He whipped his long nailed hands by touching his ass in some vain attempt to stop the flow. "Good dear, I need your help." He said helping her to stand on trembling stiletto heels, the black floor glistened around her feet". Yes, m, my Doctor, "he stuttered with a sweet voice, the obvious relief."
W, w, what is required? » The white mask of the docs looked back the twisted officer then the Jenny suspended". Take the feed clips and the anal ground nurse. I want to make the hair of this bitch on the end! "Jennifer could not cry, but his eyes screamed for her. The nurse took every soft nipple between her finger and her thumb and carefully
blocked them with strong crocodile clips, threads that came out of metal teeth. Jenny's tits swell under the compression of the suspension strings, her nipples pointing towards the ceiling that digs them in his ass. This one also had an electric
power making her pale tit fleshy. Her body was convulsing the feeling of undulating power like a tidal wave pushing her sphincter, as it flowed as fast as it could to the floor. Jenny's eyes are rolling. Her body to cling. Her boobs quickly tightened the suspended
massaging her wrinkled dented wand into a recognizable shape. The doctor stopped the flow of power into the poor girl. She looked at his shoulder, eyes wide open and sweated terribly. It was terrifying. So high; glistening in totally naked sweat; his dick hardening again. In fact, he didn't think he'd ever collapsed. And he would have been right, so he
pumped Viagra and lust that he could and would have fucked for hours. Her white face mask scolded her, her eyeballs black and evil. She dropped her gag and as soon as her lips were free, she started bleeding in panic. "Please, not anymore, I'll do whatever you want, don't do it, no. "She was the one who screamed the house in a spinning spasm as
from the anal soil and her arms were free to pull up. However now she had a dog leather collar that grabs around her sexy long neck. He heard coughing and spluttering. Agent Smith was sitting in front of you." Oh, please help me do something! Jenny shouted to look at him through her scattered thighs, on her bruised crawling pole. The doctor
dragged her to the officer sitting with her long dark hair. She bumped in pain, but no one less ruffled forward until her head was around the police. His fat cock looked so painful deep purple head with bruises and arousal. He felt that the He pushed his head forward and opened his mouth to swallow the desperate rod. The Smith officer was bored in
his back, the feeling of Jenny's soft lips that touch his skin, swinging him inside his mouth was incredible. He was tossing and spluttering, but the doctor wanted her to take more. Jenny felt the cock bouncing around the roof of her mouth, then slipped scaryly Towards the tonsils. You tried to reject it, but the doctor was blocking her. Now the nurse
was staring at her something to her collar. Jenny began to panic, but it was too late, now she had two skin straps on her attacking her collar. The other ends were attached to the SMITH agent leather belt, the same as held the vibration in the
man's cock as he transmitted through his body. The straps had buckles to stretch and shorten and Jenny understand what they wanted to do. "That asshole, swallowing it slowly, from. Every light pressure from them on her head to swallow a smaller fraction. But she couldn't get back. Little by little they were taking his entire seven inches to his hairy
base! His nose was on the basin and the knew he would surely suffocate at any time. The first slap of ass hit her. Ingooted and the head shock forward taking even more cock, the nurse pulls the straps to stop his head in the
slap of man. He bite down involuntarily, arresting his car from choosing completely. The policeman hit for pain. His Hot Rod was pressing on the back of Jenny's gorge, now the girl's teeth grabbing her cock as they could bite. Slap! Slap! Now the doctor and the nurse were both sides of his back taking swings one after the other ". Near bitch,
swallow, swallow. Yes that's all, choke on it! "He heard the doctor on his knees behind her pussy tightly forcing her mouth already

full over The policeman basin. The doctor came around her body of her herself to grab her hard excavation rhythm. Grangì of pleasure, Smith also made grunts with gag. The policeman was about to arrive. Doctor thrust hammered in the girl with such intensity felt every second her pussy of her deep cock and her mouth deep cock of her would touch her tips. Jenny himself was like a piece doll with her hands grabbing her legs of the chair, her face forced to look down and the straps Now virtually only the buckles separated her collar from her pelvic belt. When the cops arrived, she had no way of getting out or swallowing properly. The man's dick had waited so

long that it ran right down her throat. Often along spurts her ejaculation the most uncomfortable for the ass dildo her muscles were tightening and unclenching. Jenny tried to swallow the best she could. If his throat filled up, it would be The doctor was slipping in and out of her at the edge of her pussy circle before turning back in. Every long deep thrust tilted upward to put pressure on its g-point was on the brink of revenge. She felt that the straps were unreliable and she threw her mouth out of the thick dick spitting what had remained while the doctor keeps fucking her hard from behind. "Oh God, oh God, stop doing this to me!" He waved by grasping the legs of the chair more Outside the corner of his eye, he could see Smith appearing to be more struggling with his chair. The doctor was taking his doggie style on the floor his hands around the waist he was not looking over his shoulder instead focusing on angling his tall cock against his virginal wall. Jenny toxed and grunted her dick by doing her all her body rock and almost collapsed. The nurse was standing as in a trance and she didn't seem to notice the policeman as her inflated biceps, the ropes that stretch. Suddenly he was at his feet his hand around the head of coating in skin doc badly. Jenny heard Dr. Nooo's cock jumping while he was pulled back screaming in rage. The cop was tearing the mask off his head screaming terror from the doctor worse than any Jenny gave that day. He felt the man stepped on her and she fell dispersed to the fucking floor of the man shrinking, his body almost completely glaring. Officer Smith had the mask firmly in hand the characteristics that seem even more bad in it is contorting grip skin. "Fuck... Fuck!" Smith could only supply himself with relief. While he had pulled on the anal vibrator he was safe in the seat and even now he was still burning to himself. The nurse stopped with her hands over her mouth in shock. But she didn't move from her place. The cop continued to curse leaving Jenny struggling under the dazed doctor. "Hey, help us guickly. Jenny tried to get him to concentrate the doctor who starts sticking his head. Agent Smith still had the mask, but notjumping to his help. Fuck you! He kept cursed, the doctor watching him. "I thought... The doctor watching him be added to clean his forehead. The doctor standing now looks lost; a simple shadow of his rampant alter ego. Smith still didn't believe it. He thought this gimp mask wasmonths ago, he made me do a new one. The pitiful answer came. Smith has narrowed his eyes. He looked down the mask, then he returned to the doctor." Better keep it from now on." He said his temperament fades. Smith's been here for months. The doctor would have been arrested more than a year ago if it wasn't Officer Smith and his perverted pleasures that had originally investigated him. Mental patients had no problem fucking and experimenting, but "Jesus in college chick! Get off the road!" She knew she'd be here. So he made sure to cover this research area. He would come back to solve this mess when the doctor overturned thinking he was turning it into, and then somehow that crazy fucking mask had appeared again. "Fuck!" cried in frustration and down. "Aren't you here to save me?" He said in a whip. "Oh, shit, she's brilliant!" Spat sarcasically his dick begins to harden again while he has picked up the foreskin. Its perfect figure, deep split in clench and all golden bright with sweat and artificial light. The policeman had to wait long enough. "Let all four-year honey be his time for you and me to have an intimate knowledge." Epilogue: Officer Smith stopped at the sanatorium car while the sun began to fall. He was finished an hour earlier today, as he regularly did. His wife and children would have waited at home as always, but before he had his normal date with Jennifer. For a few days it seemed too close to calling; That damn car was the biggest concern. But after using his contacts to make him crush and bring back on a pick up his fears were very subsurfaced. He stopped the car in the new parking lot on the back of the building. He helped that this was supposed to be re-re-laid then. A good solution to his test problem he had to accept. The doctor was waiting for him and gave him a dissatisfied throw as he approached the car." I have so many experiments to do." he said frustrated at the constant distraction of this officer to his routine. Agent Smith beat him in the back while he was out of his car. "Of course," he said totally uninterested. He said it every time he showed up. Six months had passed without any clue and the case was now in the pending tray. The doctor had done well to take his false medical notes; They would also raise a rather tight inspection if you ever needed it. But even this crazy doctor knew he needed Smith to continue pointing the investigation in a wrong way from time to time. Smith felt his breathing was a little heavier. She would have been all limping like normal. Maybe you'd find her in the middle of a dirty experiment like deep anal fisting or just tied up in the fucking tit tubes sucking off like last time. Whatever never managed to send him over the edge watching his dick slide in and out of that perfect ass as he took his double bent into some outrageous outrageous He smiled to notice that he was still a bit of a fighter even after all these long months. The Doc looked at him disappear into the building. He stopped for a moment then straightened his white coat. He heard the familiar voice; Attucti, then begsing to curse. He was under him coming from the concrete. In addition to law protection, the doc had something else just as important to thank Smith. He would never have allowed him to have that mask and now, well, he could scream everything he wanted to him but he would never have more checked it. Well how could he? He was forever imprisoned in Jenny's crushed Buick's trunk; Buried deep under the new cement parking lot. Park.
