Recently, there have been so many ads on the Internet that has become quite problematic to find a web resource that has stayed at least a moderate number of advertisements. If you are tired of annoying advertisements, the UBLLOCK source extension for the Google Chrome browser will come to Handy.ublock Origin is an extension of Google Chrome Browser that allows you to block any type of advertising that occurs while navigating the installation of Web.ublock Origin, you can download UBLLOCK source directly from the link at the end of the article or find yourself through the extension store. To do this, click on the icon of the browser menu and in the list shown Go to "Additional Tools" - <Extensions>. Until the bottom of the page and open the article "More extensions" . When the Google Chrome extension warehouse is loaded on the screen, enter the name of the extension you are looking for: "Source of Ubllock" in the left area of the window. The window in the search photo. The extension we are looking for will be displayed in the block extensions " ". Click on the installation of the button on the right to add it to Google Chrome. as soon as the UBLCK source extension is installed on Google Chrome, the
