HITRON E31N2V1 User Guide Introduction This capitle presents the E31N2V1 and its GUI (User Gran's Interface). E31N2V1 GENERAL DESCRIPTION Its E31N2V1 is a docsis módem, router and embedded multimedia terminal adapter (EMTA) that allows you to connect your Ethernet and analomic phones wired between Sâ and to the internet through the cable connection of your building. TR-069 and HNPAP for a fashionable configuration and remote administration. Á, á, ~ á, á, ~ á, ~ á, ~ management and improved stability for a low total cost of ownership. Hardware connections Á, ~ á, á, ~ Á- This section describes the ports and physical buttons of E31n2v1. Version 1.0, 11/2017. Copyright 2012 Hitron Technologies version 1.0, 11/2017. Copyright 2017 Hitron Technologies ... Hardware Connections Table 2: Restable hardware connections Use this boton to restart or restore your E31N2V1 to your default configuration of fanbrica. To restart the E31N2V1, press the boton and press for four seconds, then release. The E31N2V1 is restarted, using its existing configuration. Page 12 Hitron E31N2V1 User Guide Table 2: Ethernet hardware connections Use this port to connect your computer and/or other network devices, using a cable Category 5 or 6 with RJ45 connectors. The LED to the left shows the speed of the connection ... 13).
