Therefore, Lufick will bring to everyone Document Scanner, a perfect and professional application for manual document processing, and can be automated to save users time. Its use mechanism is simple, but the effect is great and saves users a lot of working time. Moreover, the application will come with many specialized editing tools, helping users create perfect documents without understanding all the important knowledge with writing tools. SCAN DOCUMENT WITH A CLICK Compared with other scanners, the user has to keep the device as they automatically scan, and that's complicated and time-consuming. But with Document Scanner, it is different. Users only need to take photos of important documents with perfect angles and average image quality, and the application automatically scans in the background. The scanning tool can be done manually or automatically, depending on the user's preferences or needs and its usage mechanism is different. After all, the application will always produce consistent text quality, and from then on can continue with editing and exporting to other formats. With the Document Scanner, copying documents becomes simpler, and the user can focus on other tasks while the scanner is working. INTEGRATED AI FOR EXTREME ACCURACY Most modern scanners, including the Document Scanner, will integrate with flexible AIs to improve their work efficiency and processing speed. Users can take multiple pictures at once, then arrange the order, and the batch scan will be done smoothly. As long as the user has good quality, configurable images, the application can scan and easily produce results in no time. Impressively it will backup everything the user has captured, including the design, symbols, and photos attached. Just the document, everything can be scanned and give the user a perfect result. PROFESSIONAL EDITOR AND FEATURES After completing the document scan, the user can proceed to visual edits, where anything could happen in terms of color or pictures attached. Its editor is simple yet enough for the user to have a perfect document, including changing their colors and filters. The app will have many different filters available to users, and they can all be customized for more impressive results. The filters and the app's aftermath features are flexible and innovative, allowing users to edit simple details that previous features couldn't. COMPRESS OR RESIZE YOUR DOCUMENT After being scanned, many documents will give users a lot of information and huge capacity, so compressing is essential and effective in limiting the document's size. The compress feature can be easily customized, giving the user more options and easily moving on to the next editing steps. Next is the document's size before it is ready to be exported, where the document will automatically produce 1:1 results depending on the distance of the camera from the document. And users can enlarge or reduce documents after being scanned to get the desired results. There are countless different types of documents printed on many special paper sizes, which helps users save time editing if using paper sizes other than A4 papers. CREATE CUSTOM WATERMARK FOR YOUR DOCUMENT If the user decides to export the document but wants to save the editor's name, it can be applied to many different watermarks on the document's content. The custom watermark tool is animated and flexible, allowing the user to insert the watermark's name, font, and color. Users can save current watermarks and paste them extensively in the future. The insertion of a watermark is a creative element, as it retains its ownership, and users can freely export documents around the Internet. EXPORT IN VARIOUS FORMATS Document Scanner is a versatile application and is widely used for its versatility and convenience, and it offers users a variety of formats for export. The impressive thing is that before exporting, users can copy all the documents for personal use and then export them to text or PDF format. Users can even share them directly to other platforms or a certain target in person immediately. The direct sharing function saves users time for backing up, even sending to superiors immediately after the document is finished. The Document Scanner gives users many impressive features and high-speed document processing capabilities, and users can reduce manual work and enjoy a coffee while the document is being processed. Moreover, the quality and aftermath processing tools are perfect and user-friendly, promising to give users the best user experience when working with documents.
