Gregory T. Jones

1234 Oak Avenue
Bowling Green, Kentucky 42101
(270) 555-1234
gregory.jones154@topper.wku.edu

OBJECTIVE: To obtain an entry-level position as a Mechanical Engineer with ABC Technologies, allowing me to utilize my education and internship experience while gaining valuable work experience in a team oriented environment.

EDUCATION: Western Kentucky University – Bowling Green, Kentucky *Anticipated May 2012*
Bachelor of Science in Mechanical Engineering, Minor: Mathematics
GPA: 3.2

SKILLS & QUALIFICATIONS:

- Skilled in Solid Works, Math CAD, Matlab, MS Office, PLC programming and machining
- Knowledgeable in Mechanical Engineering Sciences: Fluid Mechanics, Strength of Materials, Dynamic Systems Analysis, Vibratory Motion, Thermodynamics and Heat Transfer
- Fast learner and independent with strong leadership and critical thinking skills

RELEVANT EXPERIENCE:

Lord Corporation – Bowling Green, Kentucky *Summer 2011*
Intern

- Created manufacturing standards that were adopted throughout the production facility
- Aided in facility energy analysis
- Designed fixtures to improve rubber flash material
- Teamed with engineering department to test design of materials; documented findings

Bowling Green Motorsports – Bowling Green, Kentucky *April 2009-June 2011*
Team Leader/Laborer

- Provided maintenance and preparation of all racecars
- Served as tire specialist and recorded all scale data
- Worked in a team of 10+ crew members to prepare sheet metal work on all racecars and overall upkeep of all radios used by each team member

ADDITIONAL EXPERIENCE:

ABC Hardware – Bowling Green, Kentucky *May 2007-April 2009*
Customer Service Associate

PROFESSIONAL MEMBERSHIPS:

- American Society of Mechanical Engineers (ASME), 2009-Present
- Society of Automotive Engineers (SAE), 2010-Present

References Available Upon Request

Joe Resume, Quality Engineering Expert

(943) 555-1232 | 1234 Main St. | joe@joesum.com

CAREER OBJECTIVE

Dynamic professional to contribute technical program/project management expertise towards supporting the engineering objectives of a firm seeking a driven professional with a dynamic background in electrical and automation, consumer car and military aviation products, and technical writing.

AREAS OF EXPERTISE

FAR Regulatory Requirements	Certification Document Preparation for FAA
Underwriters Laboratory Listing Approvals	SFC Principles and Techniques
Quality Assurance/Control	ISO-9001 Compliance
Method of Qualification Certification	Team Management and Collaboration
Process and System Development	Project Administration

PROFESSIONAL EXPERIENCE

HR TEXTON, INC. - VANHOLM, CA Senior Test Engineer 1998 - Present	<ul style="list-style-type: none">Thoroughly analyzed client specifications, design briefs and procedures, and negotiated internal documents to develop documentation supporting software engineers in creating client test and acceptance of flight control tests for A320, B747, and FA-188 aircraft flight control systems.Demonstrated dynamic technical writing skills in developing user-friendly test procedure instructions.Applied expertise in testing, validating, and verifying flight control software testing requirements.
Quality Engineering, Processes of Quality	<ul style="list-style-type: none">Conducted on-site supplier audits and special process audits of quality, production processes, record retention systems, and work procedures to qualify as second-tier vendors.Facilitated internal quality control programs and audits, created and updated FA-AMTs and prepared team testing handbooks, and developed and administered postmortem procedure database supporting ISO-9001 objectives.
Engineer Specialist	<ul style="list-style-type: none">Agreed to address Underwriters Laboratory Certification and California Air Resources Board (CARB) approval for dual-brake pump automatic fuel system, with personal accountability for certification test program assembly and testing procedures and systems.Facilitated the development and implementation of production plan, methods and processes.Collaborated with vendors in achieving certifications during part manufacturing stage.
THE BOWEN COMPANY - Long Beach, CA Office Manager 1997 - 1999	<ul style="list-style-type: none">Contributed and assigned human resources to optimize project performance within budget and budget guidelines.Managed internal affairs, personnel, and all administrative through the development, maintenance, and integration of advanced operating methods, processes, policies and procedures.Formulated and provided detailed fiscal and project status reporting to executive level.Served as liaison with FAA Los Angeles Aircraft Certification Office on certification analysis, aircraft modifications and documentation, worked with Manufacturing Inspection Office to meet FAA conformity inspection requirements, secured FAA aircraft fitness approvals on aircraft repairs, and prepared and submitted an Engineering Certification Report to both FAA and EASA.

Manufacturing Engineer	<ul style="list-style-type: none">Facilitated the development and implementation of production plan, methods and processes.Collaborated with vendors in achieving certifications during part manufacturing stage.
Manufacturing Engineer	<ul style="list-style-type: none">Facilitated the development and implementation of production plan, methods and processes.Collaborated with vendors in achieving certifications during part manufacturing stage.

MARY SMITH

Sometown, PA 17000
Phone: (555) 555-5555 | Email: ms@somedomain.com | LinkedIn URL
Recent graduate of ABET-accredited BSME program seeking an entry-level mechanical engineering position.

Key skills and knowledge areas:

- Solid command of technologies, tools and best practices in designing mechanical equipment using AutoCAD, SolidWorks and engineering drawings.
- Excellent shop and safety skills honed from work as a machinist and welder. Able to design and fabricate tooling and mechanical test fixtures.
- Strong team collaboration skills. Work closely with team members to achieve engineering goals.

Education

ABC University – Sometown, PA
Ranked in the top 10 mechanical engineering schools by US News and World Report
Bachelor of Science in Mechanical Engineering (BSME), GPA: 3.4, 5/2016

Completed Courses in Major:

- Statics, Dynamics, Engineering Analysis, Mechanics of Materials, Fluid Mechanics, Dynamics of Machinery, Measurement and

SHARE When writing a CV for Mechanical Engineer remember to include your work history and relevant skills according to the job you are requesting. Whether you are looking for an entry-level position or have been in your career for a few years, exposing your relevant accomplishments in your resume may allow you to stand out and get that job interview. This resume example is a great representation of what a hiring manager is looking for in a CV of Mechanical Engineer. Feel free to use this example as a reference as you create your own resume or use this easy resume builder that will guide you through each step of building your resume in just a few minutes. Also, see our sample of equipment, technical knowledge of engineering processes, knowledge of plant safety operations and practical knowledge of design development. Mechanical mechanics. A mechanical engineer should also be able to interpret specifications, drawings and diagrams. Since a mechanical engineer is an esteemed position, your mechanical CV should be written in the most professional way. See how the CV of a Mechanical Engineer is written below. Kibo Jimenez 6637 Non St. Lairg Sutherland VA86 6WOZIP1 Tel: 01 298 009 610 Email: [email] Date of birth: May 24, 1990 PERSONAL DECLARATION As a mechanical engineer, my main goal is to develop engineering solutions and implement procedures and mechanical engineering processes to maintain performance of the machines. Part of this objective is to carry out a periodic control of the machines and equipment to ensure that the machines work according to the provisions. My extensive experience in testing equipment and machines and my ability to conceptualize practical practical applications The direction and comply with the mechanical requirements of the company will be very useful to carry out this objective. My more than two years of experience working as a mechanical engineer in different companies knew me with different machinery and their uses. Education and Qualifications Beng (Hons) in Engineering Mechanica Glasgow Caledonian University: Glasgow 2008 to 2011 at levels in chemistry, mathematics, physical HaleloWen College A »Hantowen 2006 to 2008 GCSE in Mathematics, English, Science, Tecnologia, Art Riverston School - Lee 2001 to 2006 Personal skills and solid competences Knowledge of mechanical engineering tools and technologies. Tools and technologies. to existing teams and prepare specifications for the ability of replacement equipment to quickly adapt to the most recent technologies to conceptualize and execute capacity projects to provide engineering support at all levels around the clock From the race in the race of the mechanical race Akker Solutions A € à, – "Orkney 2012 to present the soft integration. of mechanical designer elements with all the others. It contributed to the strategy of Reference and survey. Designed mechanical elements and ensure that they are safe and functional. He executed the production of the deliverables through the management of internal resources, the contributions of the design house and the subcontracting resources. It contributed to Risk Reviews and executed mitigation strategies. Mechanical engineer Grupo WORLEYPARSON A à, – "Cumberland 2011 to 2012 The specifications of the revised customers, for Garan Tip that the products are suitable for application. Helpful in the development of prototypes, verification units / validation and product specifications, including material specifications, assembly drawings and manufacturing documentation. Provided the Directorate of Sustainable Engineering and Support A products that are manufactured inside the plant.Operations were conducted on a daily basis and reported on expected progress. He collaborated with the project management team and provided mechanical elements and interfaces to the project program. REFERENCES NES Group Limited Vance Herman, Senior Mechanical Project Engineer 348-9093 Adipiscing Rd., Durness Renfrewshire, N5V 9WT [email] Mobile: 07 168 373 450 The work of a mechanical engineer is to bring a product of an idea to the market. Mechanical engineering is called the mother of all engineering because it produces all the mechanics that help the world work smoothly. The field of mechanical engineering plays a key role in all manufactured technologies such as lifts, cars, airplanes, refrigerators and air conditioning. Mechanical engineers are qualified and highly valued in our society, and their salaries can reflect it. In the engineering circles they are considered the jack-of-all-trades because of their knowledge of working everything, from computer applications to structures, electricity, mathematics and physics. Use these resume samples of mechanical engineer to highlight your skills and build a resume that allows you to land your dream engineering work. Use this template Download Mechanical Engineer Curriculum (PDF) Why this curriculum vitae works By including a work goal in your mechanical engineering curriculum make sure you match the keywords in the job description. So if the job description repeatedly mentions CAD, you should probably have that in your resume target. If you are discussing whether or not to include an objective, simply exclude it. Unless you're going to customize for every role you apply, it's usually not worth having. Save that space for your achievements in your previous roles as a mechanical engineer. Please note that this resume is full of quantifiable. Always, when it comes to its metal engineering curriculum vitae, the numbers speak tightest that the words. Mechanical engineer you probably have meric such as the reduction of deficiencies, deficiencies, Achievement, and customer satisfaction. Look at the description of the work and the required responsibilities and work to match your methods obtained to what the Hiring Manager is looking for. Consider adding how the team in which it was as a whole, was able to produce positive quantifiable results for customers and the company's leadership. Seeing him, since not only an engineer performed, but also as a team player can raise his curriculum. Make sure your past experience is written in processable terms. When you use our tool, you will see that work experiences in our sample curriculums always start with strong action words. Consider the work you have done, or it is still doing it, and think about the words of action (verbs) that describe what it did, which shows how it produced a result. Words such as: managed, supervised, directed, used, implemented, designed. ... Using action words to describe your work is a crucial part of your mechanical engineer curriculum. The hiring managers are looking for autonomy and their ability to do the work. This is not the place to use a passive voice. Speaking with the hiring manager and the curriculum of him is

his first opportunity to show what he can do. Use this template Download the resumption of Mechanical Design Engineer (PDF). By what this curriculum works on the skill part of your mechanic of design is the opportunity to list key areas What do you think are your greatest assets? The abilities that are incarnated are the abilities of skill, competition and excellence that will bring to work. This resumption of mechanical engineer does a great job of demonstrating accident skills, such as design, management, prototypes, building, etc. To be a mechanical design engineer, you will need a title in engineering of design or mechanical engineering, certifications can be useful. Also. Certifications like PMP, Six Sigma, Lead. If you have any of these additional certifications, be sure to keep them current before putting them on your resume. If you have many years of experience, structure yourDesign engineer resume in reverse chronological order. In other words, your most recent experience should go at the top of your resume with your oldest experience at the bottom. If you are currently a mechanical design engineer, pay a lot of attention that the experience you enumerate for your current work coincides with the keywords and responsibilities for the work you are requesting. use this template download level of input mechanical engineer resume (pdf) Why this resume works if this is your first position of mechanical engineer or not your resumption of mechanical engineering of entry level should reflect the experiences that you have in the past that focus on the role of the first position of mechanical engineer. In this case, you should show other things you learned in the past experience, such as the ability to work with a team, the times when you played a leading role, so achievements in your last role, etc. give the measurable metrics in each work experience if you can. metrics are made and stand out to any hiring manager who resumes the mechanical engineering level of reading income. Metrics show achievements effectively, make an impact and transcend language. If you can't give a metric for every work experience, do your best. When working with our resume reviewer, you can start to see how the metrics form a resume in form and can start to collect the measured results in progress. for an entry level position, do not hesitate to include also soft skills (v. hard skills: self-care, project management, etc.) in your resume. oe this template download the resumption of the internship of the mechanical engineer (pdf) Why this resume worksis applying for an internship of mechanical engineering, employers expect that they do not have much work experience, if any, relevant? if you have it, great, but if not, do not stress because you can still do a resumption of compelling mechanical engineering internships. it's important thatWe show that you really stressed in your non-creative roles. Understood creating new processes or improving efficiency? These skills appeal to hiring managers for mechanical engineering practices. To win the extra edge when trying to break in mechanical engineering, personalize your mechanical internship curriculum for each paper that is applied. You can do it in 4 places: Your cover letter, your curriculum vitae goal, the skill sections and your work experience. If the internship you are requesting is looking for someone who can work independently, then you can mention that in the four places mentioned above to increase your chances of obtaining an interview. Use this template Download resume of mechanical engineers (PDF) as this curriculum vitae works a good LITMUS test to determine if it should include or not a skill is if you can talk about using that specific skill in one of the projects that ready in your resume of mechanical project engineer. This achieves two things: it strengthens the hiring manager who is only including skills that you are strong. It provides more context on how it deployed its skills in project management, so it makes your curriculum and candidacy it is even stronger. You must keep your mechanical project mechanism resume a page so that real estate is valuable. Do not waste your space or detach the attention of the hiring manager with a resumption goal if you will not increase your chance to get an interview. Discern between what you want to include because you are proud of your achievements, as you should be, and what is relevant to work. Relevance is key when you keep your curriculum vitae on a page. List to build your curriculum vitae? Our free online tool will guide you through the creation of a curriculum vitae that and hires you in a superior technology company. Beautiful templates with flashing designs data-based tips to help you take advantage of the maximum experience step by step so you know what to focus on built by Engineers with hiring experience years
