Despite all this you have done a great job on this game but this game still has a lot of untapped potential and I don't know if you have seen the latest news on upcoming mobile games but they are coming out with some groundbreaking games and I don't I want a game like this to be swept under the rug if there's any chance this game will stay with people as a pocket game. I went to check why my energy is not recovering like other games I play and looked and he said it takes a whole hour for one energy refill ticket and I don't think it should be more than 5-10 minutes, I allow it. but a whole hour just above the kill, the main reason I downloaded this game is Call of Duty Mobile removed the zombie mode to rework it and I wanted something that I didn't want to spend weeks or even months not playing zombie games but in general i think they still have hope for this game, you developers need to reduce energy recharge time for zombie mode and i find it very hard to find even weapons that work well in real online mode without an in-app purchase. I'm not sure if I can still like this game or not so I'll be honest and give this app 2 stars and I would appreciate it if you guys fix the review issue because new players coming to game, still don't know if they like it or not. , but in general not bad, but it needs to be improved and improved, as if the developers have reduced the energy recharge time in Zombie mode to 5-10 minutes, I will change my review from 2 stars to 5.
