Details	As per the NOC issued on 3-4-1993 and CC issued on 27-7-1999	Observations / lapses as noticed during the inspection of the site and building on 3-3-2010
Portable fire extinguishers	Installation of suitable type of portable fire extinguishers covering the basement parking area, main switch board rooms, transformer yard, generator rooms, inside each lift room, at each staircase landing was insisted. This was found complied while issuing clearance certificate.	Installation of portable fire extinguishers, as recommended, was confirmed during the final inspection at the time of clearance. But most of these extinguishers were found missing and a few available extinguishers were found defective. <u>Objective evidence</u>  
Escape route	Marking of the escape routes was insisted and got complied with.	This was available at the time of issue of clearance, but found missing at the time of incident.
Public Address System	Public Address System with two way communication facility near each staircase landing was recommended and got complied with.	This system, installed by the builder and found functional at the time of clearance, was not functional at the time of the incident.

How to get fire incident report.
